

## New Hope Distance Learning – Co-curricular

### **ART – MS. WIEGMANN**

Keep those creative minds going with Ms. Wiegmann's creation of the New Hope Art Studio, a place where ideas and projects will be shared for students to continue making art at home and display it. Under the 'Projects Blog' section, there will be ideas for projects students can do and at the bottom of the home page, there will be a library of student work. Families may submit photos of completed art projects for a chance to have included in the Studio. Email [cwiegmann@newhopememphis.org](mailto:cwiegmann@newhopememphis.org).

### **MUSIC – MRS. GRISHAM**

Mrs. Grisham finds comfort through worship during these uncertain days, and she has compiled a YouTube playlist of 20 of our favorite worship songs students know and love [HERE](#).

### **LIBRARY – MS. WARE**

Ms. Ware wants students to continue to get lost in the library. Students can email pictures of themselves reading, or the book they are reading, for a chance to be selected for a virtual **Lunch with the Librarian**. Simply email students' photos and parent contact information to [tware@newhopememphis.org](mailto:tware@newhopememphis.org). Selections will begin next week. Be sure to include the following with the photo: child's name, phone, and whether or not you have computer and internet access.

Suggested book for this week is *A Case of Bad Stripes*, illustrated and written by David Shannon. YouTube read aloud link: <https://youtu.be/AlqIbLdAYOw>

Best websites with free online books for children:

Oxford Owl, Storyline Online, International Children's Digital Library, Open Library, Amazon's Free Kids Ebooks, Barnes & Noble Free Nook Books for Kids, Mrs. P's Magic Library

### **SCIENCE – MR. STENBERG**

Although you may be inside, here are some ways to stay connected to science and the world. Travel to various museums, zoos and national parks using the various virtual tour options.
